

# GYMEA BAY OVAL – SATURDAY SETUP & PACKUP INSTRUCTIONS (TEAM GROUND CONTROL)

- Cone markers
- ┌─┐ Goals centred on yellow spray paint marker
- ★ Field number signage
- Garbage bins
- Field net divider
- Corner posts on full field corners

## GBO1 & 2: Fields 1-12 Setup

- Mini goals collected from the equipment shed (Fields 1-8).
- Quarter goals collected from Goal Storage #1 (Fields 9-12).
- Goals positioned over the yellow spray paint marker.
- Half goals collected from Goal Storage #1 (East/West) and placed at sides of field either against fence or behind the baseline.
- Cone lines aligned to yellow marker on baselines.
- Field numbers positioned behind goals. Hammer needed to put post base in ground.
- Full field goals for northern end attached to fence near road. Lift into position, 3-4 people needed.
- Full field goals for southern end attached to path edge near GBO2. Lift into position, 3-4 people needed.
- Black field net divider stored behind the ground control building. Carry into position, roll out along ground and uncap post holes. Lift into position, put rope tie downs into ground. 3-4 people needed.
- Hook/tie sponsor signage on fence at eastern side of GBO1.
- Put garbage bins out as indicated ~ approx. 4 per field, extras at canteen and BBQ area.
- Corner flags put at 4 corners of each full field. Additional corner flags positioned at either side of halfway line (offset by ~1 m from sideline).
- Put signage boards on either end of the black net divider.
- Put large orange cones across the Emergency Vehicle gate in the carpark.

*Yellow marker for centre of goal posts.*

*Yellow marker for cone lines.*

*Black field net divider.*

*Large cones in front of the emergency gate access.*

*Signage for between fields.*

## **GBO 2: Fields EAST/WEST Setup**

- Remove any remaining goals from previous games.
- Remove cones from centre of the half field.
- Half field goals should be on the field edges, ready to move into position. Otherwise collect from Goal Storage #1.
- Centre goals over the yellow spray paint marker.
- Confirm corner flags in position.

## **GBO1 & 2: Full Field Setup**

- Remove any remaining goals and cones from previous games.
- GBO1: Northern end goals attached to fence near road. Southern end goals attached to path edge near GBO2 (Western end). Lift into position, 3-4 people needed.
- GBO2: Eastern end goals attached to cricket net fence near road. Western end goals behind goal mouth attached to path railing. Lift into position, 3-4 people needed.
- Confirm corner flags in position and additional flags offset from half-way line..

### **GBO 1: Fields 1-8 Pack-up**

- Return to Equipment storage room: goals, field number signage and cones.

### **GBO 2: Fields 9-12 Pack-up**

- Remove the goal posts and return to Goal Storage #1.
- Take field number signage back to Equipment storage room.
- Remove cones from between quarter fields ie. 9 and 10, 11 and 12. **Leave the cones in place along the halfway line for the next game.**

### **GBO 2: Fields EAST/WEST Pack-up**

- Remove the goal posts and return to Goal Storage #1.
- Remove cones from centre of the field.

## **GBO1 & 2: Pack-up**

- Pack and fold the sponsor banners from the black fence, place in the wheelbarrow and return to the Equipment shed.
- Pack-up signage boards and place in Equipment shed.
- Return goals to original storage locations.
- GBO1: Northern end goals attached to fence near road. Southern end goals attached to path edge near GBO2 (Western end). Lift into position, 3-4 people needed.
- GBO2: Eastern end goals attached to cricket net fence near road. Western end goals behind goal mouth attached to path railing. Lift into position, 3-4 people needed.
- Lift the black field net divider out of the post holes and lay down. Roll up and carry to behind the ground control building. Place on the brackets. 3-4 people needed.
- Return corner flags to Equipment shed.
- Return garbage bins to cage near driveway.
- Pack-up the large cones from the carpark and return to the Equipment shed.

*Goal pack-up along path at western end of GBO2.*
